

# TotalAccess®

## Secure Electronic Data Solutions

Electronic data solutions from TestAmerica include fully searchable PDF reports, access to data via TotalAccess® and a library of more than 1,000 electronic data formats. TestAmerica's laboratory information management system (LIMS) links our network of laboratories and creates one single report and electronic deliverable, regardless of analysis location, saving review and compilation time, reducing validation costs and preventing transcription errors.

And your data is secure. Our data systems are housed in a dedicated data center backed by an industry leading 100% uptime commitment to power and network connectivity. We also maintain a redundant mirror image of our data systems to ensure that data is protected from a catastrophic event.

### Electronic Data Deliverables (EDDs)

Electronic Data Deliverables (EDDs) offer clients the ability to sort, analyze and easily upload results into databases and track data over time. TestAmerica currently offers more than 1,000 EDD options in formats including Excel, Access, DBF, ASCII and text-based files. In addition to our standard EDD offerings, many of our EDD formats have been designed to meet the needs of specific industry sectors including:

- Commercial data formats such as EQUIS, EnviroData, EIM, GISKEY and Locus formats.
- State and Federal agencies such as EPA, NJ, NY, CA, FL, TX, IL, NV, WI.
- Government database formats including SEDD, ERPIMS, ADR and NEDD.

Whichever EDD format you choose, you'll receive it with the confidence of knowing that your data are accurate and secure. TestAmerica employs a technical staff that is

dedicated to EDD development and client consultation, ensuring that electronic data provided to you are accurate and formatted to meet your exacting requirements.

### TotalAccess® - Your Secure Link to Data

TotalAccess® is TestAmerica's online data portal, allowing clients to track all aspects of their environmental data program from one, easy to use Internet based platform. TotalAccess® is linked directly to TestAmerica's Laboratory Information Management System (LIMS), ensuring a direct connection between the systems, and preventing the potential for costly transcription errors. Available to all TestAmerica clients at no additional cost, TotalAccess® offers clients the following time and cost saving benefits:

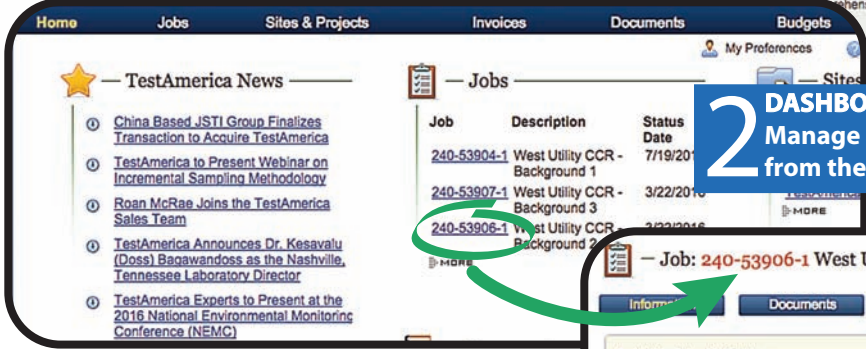

- **Rapid access to current and historical data** for real-time decision making.
- Mitigate risk and cut costs by **creating custom EDD tables** from multiple jobs/SDGs.
- Ensure compliance to regulatory and site specific reporting levels utilizing our **regulatory limit comparison tools**.
- **Secure storage of lab deliverables on our servers**, reducing your risk and data storage requirements.
- **Data trending capabilities** by sample and analyte with statistical graph display to identify outliers and trends.
- **Invoice management and budgeting**.

# Welcome to TotalAccess<sup>®</sup>, Your Online Data Solution

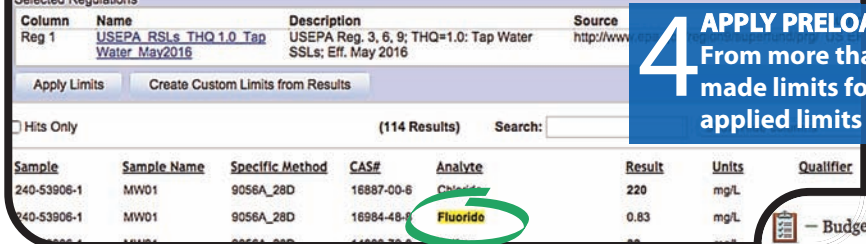

**1 LOGIN**  
Secure, customizable profiles ensure you receive the data, alerts and configurations that meet your needs.

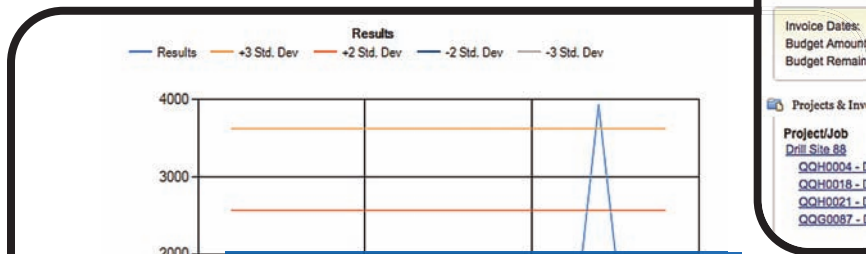

**2 DASHBOARD**  
Manage all aspects of your Projects from the convenient dashboard

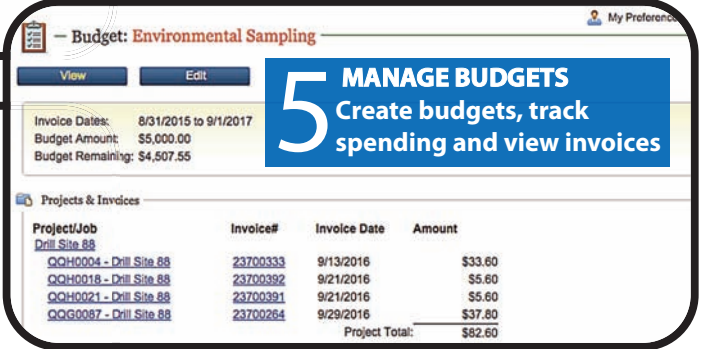

**3 JOB DETAILS**  
Laboratory location, job status, due dates, receipt information and other critical data

**4 APPLY PRELOADED REGULATORY LIMITS**  
From more than 45 states and agencies, or your own custom made limits for result comparison. Any results exceeding the applied limits will be highlighted for easy identification.

**6 TRENDING TOOLS/GRAPH CREATION**  
Utilize data trending tools/create graphs with statistical limit controls

**5 MANAGE BUDGETS**  
Create budgets, track spending and view invoices

**7 CREATE AND EXPORT**  
Custom Data tables to Excel with real-time data. Results exceeding the RL are bolded, and an optional feature to display "hits only" is just a click away. Search capability within the table is also offered.
